

The background of the slide is an abstract composition of light-colored, rectangular blocks of varying sizes and orientations, creating a sense of depth and geometric complexity. The blocks are arranged in a way that suggests a modern architectural structure or a complex data visualization. The lighting is soft, highlighting the textures of the blocks.

WORKSPACE SETUP

WORKSPACE SETUP

Exercise 01 – Create Your Workspace

Objective

By the end of this exercise, you will be able to create a single user Workspace and use a Subset as a Workspace Template.

Why is this important?

Each project will have its own Workspace. Subsets allow you to import and export Tosca artifacts, for example the Tricentis Standard Modules.

Instructions

1. Download the Base Subset: **Automation Specialist Level 1 Base.tsu** from the Learning Management System.
2. Open Tosca Commander. Create a new single user Workspace and name it **AS1 Exercises**. Use the Base Subset **Automation Specialist Level 1 Base.tsu** as your Template by checking the box **Use Workspace template**. Click **OK**.
The window will close automatically once your Workspace has been successfully created.
